

oracle architecture

1. process structure
 - user process
 - server process
 - background process
 - DBWn, LGWr, SMON, PMON, LREG, ARCn, CKPT
2. Memory structure
 - PGA (user stack+ UGA)
 - SGA
 - Share pool, large pool, database buffer chace, redolg buffer, java pool, sterem pool
3. Storage Structure
 - Logical Structure
 - Database
 - Tablespace
 - segment
 - extent
 - oracle blocks
 - Physical Structure
 - Control file,
 - data files
 - online redo log files
 - Archive files
 - Parameter file
 - password file
 - backup file
 - trace file
