Practical Report on

“Cloud Computing”

Submitted to Department of Computer Application Mechi Multiple Campus

In the partial fulfillment of the requirement for the Bachelors in Computer Application

Submitted by

Name: Achyut Chapagain(Roll No: 05)

chaitra, 2080

Under the Supervision of

Krishna Prasad Acharya

Table of Contents

Step - 1: Downloading VMware	1
1. Searching in Google	1
2. Downloading VMware	1
Step - 2: Installing VMware Wizard	2
1. Running setup wizard	2
Step - 3: Open Installed VMware from Window Icon	3
1. Open VMware	3
2. Selection of Required version	3
3. Opening VMware Portal	3
Step - 4: Creating New Virtual Machine of Windows 10 in VMware	4
1. Creating New Virtual Machine	4
Step - 5: Creating Image ISO File of Window 10	6
Step - 6: Adding ISO File in Created Virtual Machine File	7
Step - 7: Install Windows 10 as shown in the screen	8
1. All processes are shown in the screenshots:	8
Creation of Virtual Machine for Ubuntu	12
1. Download ISO File from https://ubuntu.com/	12
2. Run VMware and create a project	12
3. Add an image/ISO file of Ubuntu to its CD/DVD (SATA)	13
4. Power on the Virtual Machine	13
5. Follow the process to install Ubuntu	14
