AN INTERNSHIP REPORT

On

Digital Marketing and E-commerce Intern

Submitted to

Department of Computer Science and Applications

Mechi Multiple Campus

In partial fulfillment of the requirements for the Bachelors of Computer Application

Submitted by

Achyut Chapagain (Roll no: 05)

2080

Under the Supervision of

Mr. Narayan Dhamala

Date: 1st April 2024

To whom it may concern

We are delighted to provide an overview of internship completed by **Mr. Achyut Chapagain** at **Rupa Designer Ladies Tailors & Shop**. During the internship period from 1st February 2024 to 28th April 2024, he served as a Digital Marketing and E-commerce Intern, contributing to various aspects of our operations, including:

- Built user-friendly website for customer orders.
- Generated invoices directly from the website
- Managed online orders via Instagram, WhatsApp etc.
- Handled social media presence on TikTok, YouTube, Instagram, and Facebook.
- Created engaging content for social media platforms.
- Provided assistance to physical customers and managed inquiries.
- Prepared physical invoices for in-store purchases.
- Managed shipping logistics and maintained positive customer relationships.

Mr. Achyut Chapagain exhibited dedication, initiative, and adaptability throughout the internship, significantly contributing to our business success.

Thank you for considering him for the internship opportunity at **Rupa Designer Ladies Tailors & Shop**.

We wish him all the best for his future endeavors.

Acknowledgement

On this great occasion of accomplishment of my internship, I would like to express my sincere thanks to our Supervisor **Mr. Narayan Dhamala** for his valuable guidance and support in completing my internship report.

I would like to express my gratitude towards our Program Director **Mr. Keshav Kafle** and teachers **Mr. Krishna Prasad Acharya** and **Mr. Sunil Sharma** for giving me this great opportunity to do the internship at “Rupa Designer Ladies Items & Shop”. Without their support and suggestions, this internship would not have been completed. Their valuable guidance and suggestions helped me in various phases of the completion of this internship. I’ll be thankful to you in this regard.

I would also like to extend my gratitude to the entire team at the Pratham Rupa Designer Ladies Tailors & Shop for their warm welcome and for providing me with the necessary resources to complete my tasks effectively. I have learned so much from my colleagues and have gained valuable experience working with them.

I am grateful for this wonderful opportunity and am thankful to everyone who made it possible. I am confident that the skills and knowledge I have gained during my internship will greatly benefit me in my future endeavors.

Abstract

This internship report serves the purpose to record the details of my internship which was done at Rupa Designer Ladies Tailors & Shop, Kankai 03. Rupa Designer Ladies Tailors & Shop is a respected fashion boutique known for its bespoke designs and commitment to customer satisfaction. Located in Kankai 03, the boutique blends traditional craftsmanship with modern trends. From February 1st, 2024, to April 28th, 2024, I had the privilege of undertaking an internship at this esteemed establishment. Throughout this period, I immersed myself in various aspects of the business, including digital marketing, e-commerce, and customer relations. This report encapsulates my journey and contributions during this enriching internship experience. Students who are undertaking the Computer Application degree in Tribhuvan University are compulsory to undergo an industrial training at one of the recognized organization or company for a period of eight weeks prior to graduating. Students are allowed to make their own choices to enter any organization to do their internship, as long as the organization have IT infrastructure to work on. The objectives of doing this internship are to give exposure to the students to the real working life, enable the students to develop a deeper understanding on the course which they are undertaking and to provide the appropriate work-related trainings to them in the field of Software Development and Computer Application Profession.

Chapter 1: Introduction

1.1 Introduction

During my internship at Rupa Designer Ladies Tailors & Shop, I was engaged in a comprehensive project focused on enhancing the company's digital infrastructure and operational efficiency. The primary objective of this project was to develop a user-friendly website to facilitate customer orders and streamline invoice generation processes. In addition to these core tasks, I undertook various other responsibilities aimed at optimizing the company's digital presence and customer engagement strategies.

The cornerstone of the project was the development of a robust website tailored to meet the specific needs of Rupa Designer Ladies Tailors & Shop. This involved designing and implementing a user interface that offered seamless navigation and intuitive order placement functionalities for customers. Furthermore, the website was equipped with features to generate invoices directly from online orders, ensuring accuracy and efficiency in transaction processing.

In addition to website development and invoice generation, I also took on various ancillary tasks to support the company's digital initiatives. This included managing online orders received through platforms such as Instagram and WhatsApp, as well as overseeing the company's presence on social media platforms including TikTok, YouTube, Instagram, and Facebook. Furthermore, I actively contributed to content creation efforts for social media channels, aimed at fostering engagement and promoting brand awareness.

Moreover, I was involved in handling physical customer inquiries, preparing physical invoices for in-store purchases, managing shipping logistics, and nurturing customer relationships. These responsibilities complemented the digital aspects of the project, ensuring a seamless and integrated experience for both online and offline customers of Rupa Designer Ladies Tailors & Shop.

Through this multifaceted project, I gained valuable insights and practical experience in digital marketing, e-commerce, customer service, and logistics, contributing significantly to the success of Rupa Designer Ladies Tailors & Shop during my internship tenure. This report will delve deeper into the specifics of the project, detailing the methodologies employed, challenges encountered, and outcomes achieved during the course of my internship.

1.2 Problem Statement

Several challenges were identified that hindered the company's digital operations and overall efficiency. These challenges stemmed primarily from the absence of a robust online platform to manage customer orders and streamline transaction processes.

The lack of a user-friendly website posed significant obstacles in effectively catering to the needs of the company's clientele. Customers faced difficulties in navigating the existing online channels, resulting in a suboptimal user experience and potential loss of sales opportunities. Additionally, the manual process of generating invoices for online orders contributed to inefficiencies and increased the likelihood of errors in transaction records.

Moreover, the absence of a centralized system for managing online orders received through various digital platforms, such as Instagram and WhatsApp, further compounded the company's operational challenges. This decentralized approach led to inconsistencies in order processing and communication, potentially impacting customer satisfaction and retention rates.

Furthermore, the company's limited presence on social media platforms hindered its ability to effectively engage with existing customers and attract new ones. The lack of compelling content and strategic marketing initiatives on platforms like TikTok, YouTube, Instagram, and Facebook limited the company's reach and brand visibility in the digital landscape.

In light of these challenges, it became evident that there was a pressing need to develop a comprehensive digital solution that would address the aforementioned issues and enhance the company's online capabilities. This project aimed to overcome these challenges by designing and implementing a user-friendly website for customer orders, streamlining invoice generation processes, and optimizing the company's digital presence across various online platforms.

1.3 Objectives

The overarching objective of the project undertaken during my internship was to enhance the company's digital infrastructure and operational efficiency. To achieve this overarching goal, the project was designed with the following specific objectives in mind:

- To develop a user-friendly website for convenient order placement.

- To streamline invoice generation processes to minimize errors and manual workload.
- To centralize online order management for improved efficiency.
- To enhance social media presence on platforms like TikTok, YouTube, Instagram, and Facebook.
- To improve customer engagement and satisfaction across digital touchpoints.

1.4 Scope and Limitations

The scope of this project are as follows:

- Develop and implement a user-friendly website for customer orders.
- Integrate features for order placement, payment processing, and automated invoice generation.
- Centralize online order management.
- Enhance social media presence on platforms like TikTok, YouTube, Instagram, and Facebook.
- Improve customer engagement and satisfaction across digital touchpoints.

The limitations of this project are as follows:

- Time constraints inherent in the internship period.
- Limited resources, including budgetary constraints and access to specialized tools.
- Technical expertise limitations.
- Unforeseen technical issues.
- Efforts made to mitigate limitations and achieve project objectives to the best extent possible.

1.5 Report Organization

The report is organized as follows:

Chapter 1: It includes the introduction of the project along with the problem statement, objectives, scope and limitation.

Chapter 2: It focuses on the introduction to organization along with the details of organization, hierarchy, working domains and description of intern department.

Chapter 3: It contains the background study related to the project along with descriptions of fundamental theories and general concept. Literature review in order to have broader understanding of the project concepts based on research done previously and analyze similar systems for comparison with projects.

Chapter 4: It includes the internship activities including roles and responsibilities, weekly log, description of the projects and tasks performed.

Chapter 5: It contains the lesson learnt from start to finishing the project and project conclusions.

Chapter 2: Introduction to Organization

2.1 Organization Details

Rupa Designer Ladies Tailors & Shop stands as a beacon of fashion in Surunga, Jhapa, Nepal, embodying the essence of elegance and style. Established with a passion for crafting exquisite garments, this boutique has carved a niche for itself in the realm of Nepalese fashion.

Specializing in a diverse range of attire, Rupa Designer Ladies Tailors & Shop caters to the sartorial needs of discerning customers. From intricately embroidered sarees to contemporary kurtha surwals, each piece is meticulously crafted to perfection, blending modern trends with traditional Nepalese aesthetics.

What sets Rupa Designer Ladies Tailors & Shop apart is its unwavering commitment to quality and craftsmanship. Every garment is crafted with utmost care and attention to detail, ensuring that each customer walks away with a piece that not only reflects their personal style but also exudes elegance and sophistication.

With a reputation for excellence, Rupa Designer Ladies Tailors & Shop has garnered a loyal clientele who trust in the superior quality and impeccable service offered by the boutique. Whether it's for a special occasion or everyday wear, customers can rely on Rupa Designer Ladies Tailors & Shop to deliver garments that surpass expectations.

In addition to its physical presence in Surunga, Jhapa, Rupa Designer Ladies Tailors & Shop extends its reach through digital channels. With a user-friendly website and active presence on social media platforms such as Facebook and Instagram, customers can easily connect with the boutique, browse through the latest collections, and place orders from the comfort of their homes.

As a cornerstone of fashion in the region, Rupa Designer Ladies Tailors & Shop continues to inspire and delight customers with its timeless designs, impeccable craftsmanship, and unparalleled service.

2.2 Organizational Hierarchy

The organizational hierarchy is established so that the existing entity can operate and help to achieve its objectives and goals viably. It is the organizational structure that has the authority to outline task allocation, coordination, and supervision and how they should be

directed. In an organizational hierarchy, everyone collectively works towards achieving only the company goals and objectives without deviating from their path.

Figure 2.1: Organizational Hierarchy

2.3 Working Domains of Organization

Rupa Designer Ladies Tailors & Shop excels in designing, tailoring, customer service, operations, quality control, sales, marketing, finance, HR, technology, compliance, and community engagement to ensure its success in the fashion industry.

2.4 Description of Intern Department/Unit

In the Digital Marketing and E-commerce Department at Rupa Designer Ladies Tailors & Shop, I played a pivotal role in enhancing the company's online presence and customer engagement. Responsibilities included building a user-friendly website for customer orders, generating invoices directly from the website, managing online orders via platforms like Instagram and WhatsApp, and handling the company's social media presence on TikTok, YouTube, Instagram, and Facebook. Additionally, I created engaging content for social media, provided assistance to physical customers, prepared physical invoices for in-store purchases, managed shipping logistics and maintained positive customer relationships.

Chapter 3: Background Study and Literature Review / Related Works

3.1 Background Study

To begin, thorough research was conducted to comprehend the landscape of digital marketing, encompassing various channels and strategies employed to engage target audiences effectively. This involved understanding the nuances of social media marketing, search engine optimization (SEO), email marketing, and content marketing, as well as the tools and platforms utilized for campaign management and analytics.

In parallel, an exploration of e-commerce fundamentals was undertaken to grasp the intricacies of online transaction processing, inventory management, and order fulfillment. This included familiarizing oneself with different e-commerce models, such as business-to-consumer (B2C) and business-to-business (B2B), as well as the essential components of e-commerce platforms and payment gateways. Security protocols were also studied to ensure the integrity and confidentiality of online transactions.

Additionally, an in-depth study of CRM principles was conducted to understand the significance of managing customer relationships effectively. Concepts such as customer segmentation, personalized communication, and feedback management were explored to comprehend how CRM systems contribute to building strong and enduring customer connections. Moreover, the intern learned about CRM metrics such as customer lifetime value (CLV), customer retention rate, and customer satisfaction scores, which are instrumental in assessing the success of CRM strategies.

By immersing oneself in these foundational theories and concepts, the intern gained a comprehensive understanding of digital marketing, e-commerce, and CRM practices. This knowledge served as a solid groundwork for executing the internship project, enabling the intern to apply relevant strategies and techniques to enhance the digital presence and operational efficiency of Rupa Designer Ladies Tailors & Shop.

3.2 Literature Review

The literature review for the internship project involved an examination of similar projects and relevant theories within the realms of digital marketing, e-commerce, and customer relationship management (CRM). Research into digital marketing initiatives revealed the

significance of social media engagement and personalized email campaigns in driving customer engagement and increasing brand loyalty. Effective social media strategies can significantly enhance customer interaction and retention, while personalized email marketing is shown to improve customer response rates and loyalty [1]. Similarly, studies on e-commerce projects emphasized the importance of user-friendly website design and efficient inventory management systems in enhancing customer experience and streamlining operations. A well-designed website can reduce bounce rates and increase conversion rates, while efficient inventory management systems are crucial for meeting customer expectations regarding product availability and delivery times [2]. Furthermore, literature on CRM strategies highlighted the benefits of personalized customer interactions and the implementation of CRM software for centralizing customer data and improving communication processes. CRM systems facilitate better customer relationship management by providing a unified platform for data management and customer interaction tracking, thus enabling more personalized and effective communication [1]. By synthesizing findings from these studies, valuable insights were gained into effective strategies and best practices that could be applied to the internship project at Rupa Designer Ladies Tailors & Shop, informing the development and implementation of digital marketing, e-commerce, and CRM solutions tailored to the company's specific needs and objectives.

Chapter 4: Internship Activities

4.1 Roles and Responsibilities

As an intern at Rupa Designer Ladies Tailors & Shop, my roles and responsibilities encompassed a diverse range of tasks aimed at enhancing the company's digital presence and operational efficiency. Key responsibilities included:

- **Website Development:** Build and maintain a user-friendly website for customer orders.
- **Invoice Generation:** Implement an automated system for generating invoices directly from the website.
- **Online Order Management:** Manage online orders from platforms like Instagram, WhatsApp, etc.
- **Social Media Management:** Handle the company's presence on TikTok, YouTube, Instagram, and Facebook.
- **Content Creation:** Develop engaging content for social media platforms.
- **Customer Interaction:** Provide assistance to physical customers and manage inquiries.
- **Invoicing:** Prepare physical invoices for in-store purchases.
- **Shipping Logistics:** Manage shipping and ensure timely delivery of orders.
- **Customer Relationship Management:** Maintain positive relationships with customers.

4.2 Weekly Log

Weekly log is summarized work activities for the week. The weekly log that describes different activities and task completed in weekly basis is given below:

Weekly Internship Log

Name of the Student: Achyut Chapagain

Date: 7th Feb 2024

Project/Job Title: Digital Marketing and E-commerce Intern

Week Number: 01

Responsibilities:

Conduct research on website development frameworks and platforms.
Assist in gathering requirements for the website project.

Activities:

Explored various website development frameworks and platforms.
Participated in initial discussions with the team regarding website design and features.

Observations:

Demonstrated enthusiasm and eagerness to learn.

Plan for Next Week:

Continue research on website development frameworks and finalize the selection.

Performance Appraisal by Mentor:

The intern showed initiative in conducting research and actively participated in team discussions. Looking forward to seeing the finalized framework selection next week.

Weekly Internship Log

Name of the Student: Achyut Chapagain

Date: 14th Feb 2024

Project/Job Title: Digital Marketing and E-commerce Intern

Week Number: 02

Responsibilities:

Finalize the website development framework.
Start initial website development.

Activities:

Selected Next.js as the framework for website development.
Began development of the admin panel for the website.

Observations:

Showed a good understanding of Next.js and its applications.

Plan for Next Week:

Continue development of the admin panel, focusing on customer management features.
Start designing content for social media platforms.

Performance Appraisal by Mentor:

The intern made a well-researched decision in selecting the framework and demonstrated solid initial development skills.

Chapter 5: Conclusion and Learning Outcomes

5.1 Conclusion

The internship at Rupa Designer Ladies Tailors & Shop was a success. We made the company better online, made it easier for customers to shop, and made more people notice the brand on social media. We also kept customers happy with good communication. To keep growing, we'll keep checking how things are going and making them even better. Overall, it was a great experience that taught us a lot about online business.

5.2 Learning Outcomes

Upon successful completion of this internship. I learned:

- Enhanced understanding of digital marketing strategies.
- Proficiency in implementing e-commerce functionalities.
- Improved customer relationship management skills.
- Developed collaboration and teamwork abilities.
- Cultivated adaptability and problem-solving capabilities.
